

DIESEL GENERATOR SETS

R-CC Series
Powered by CCEC Engines

R-CC1375D5/S

50₄

- 1) Ambient reference conditions: 1,000 mbar, 25°C, 60% relative humidity
- Standby Power Standby duty, operation under variable load, without over load;
- Prime Power-Continuous duty operation, under variable load 24/24h
 -10% over load permissible 1 hour/12 hours

Output Ratings

In	ree-Phase, 50Hz,	1500RPM
Output	Prime Power	Standby Power
Output	1375 kVA / 1100 kW	1513 kVA / 1210 kW

Voltage (V)	Frequency (Hz)	Current(A)	Power Factor
380/220	50	2089	0.8
400/230	50	1985	0.8
415/240	50	1913	0.8

Features

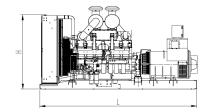

- Strong power, high torque, easy to maintain, easy to start;
- Low noise. low emissions:
- Cabinet made of high quality sheet metal, corrosion-resistant, scratch-resistant;
- Canopy sealing performance, high waterproof, dust-proof, rain, dust and other difficult to access;
- Omni-directional control, easy connection and simple;
- Cranes, fork, pull, drag, easy transportation;
- ≥8-hour fuel tanks;
- With 50°C radiator

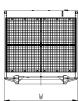

Performance Data

Engine Brand & Model		CCEC & KTA50-G8	
Alternator Brand & Model		STAMFORD & S6L1D-H4	
Control System		DSE7320 / DSE8610	
Circuit Breaker Type (Optional)		3 Pole MCCB	
		3 Pole ACB	
Fuel	100% Load	289	
. 3.5.	75% Load	222	
Consumption (l/hr)	50% Load	155	
(//111)	25% Load	82	

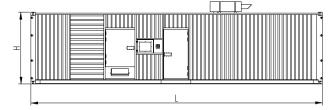

Dimensions and Weights

Control System:

DSE7320

The DSE8610 is an easy to use multi-generator loadshare system, designed to synchronise up to 32 generators including electronic and non-electronic

Both modules are compatible with electronic (CAN) and non-electronic

easily adapted to meet the most demanding industry requirements. The extensive list of features includes enhanced event and performance

Monitoring an extensive number of engine parameters, the modules will display warnings, shutdown and engine status information on the back-lit LCD screen, illuminated LEDs, remote PC and via SMS text alerts (with external modem). The DSE7320 will also monitor the mains (utility) supply. The modules include USB, RS232 and RS485 ports as well as dedicated DSENet® terminals for

(magnetic pick-up/alternator sensing) engines and offer an extensive number of flexible inputs, outputs and extensive engine protections so the system can be

- The DSE8610 monitors the generator and indicates operational status and
- fault conditions, automatically starting or stopping the engine on load demand or fault condition. System alarms are annunciated on the LCD screen (multiple language options
- The event log will record 250 events to facilitate easy maintenance. An extensive number of fixed and flexible monitoring, metering and protection features are included as well as comprehensive communication and system expansion options.

available), illuminated LED and audible sounder.

DSE8610

The Reliable Supplier for Power System Solution

Service Commitment

- The products provided are all new products. each gensets undergoes strict factory inspection.
- Products are provided with "three guarantees" service, the period is 12 months after the unit is adjusted and the accumulated running time is 1000 hours, whichever comes first.
- The services and accessories of products can be obtained from the after-sales service department (86-510-83781999-1009).
