Features

- Strong power, high torque, easy to maintain, easy to start;
- Low noise, low emissions;
- Cabinet made of high quality sheet metal, corrosion-resistant, scratch-resistant;
- Canopy sealing performance, high waterproof, dust-proof, rain, dust and other difficult to access;
- Omni-directional control, easy connection and simple;
- Cranes, fork, pull, drag, easy transportation;
- ≥8-hour fuel tanks;
- Open type with 40°C radiator, Soundproof type with 50°C radiator

Control System:

DSE7320

DSE8610

- Monitoring an extensive number of engine parameters, the modules will display warnings, shutdown and engine status information on the back-lit LCD screen, illuminated LEDs, remote PC and via SMS text alerts (with external modem).
- The DSE7320 will also monitor the mains (utility) supply. The modules include USB, RS232 and RS485 ports as well as dedicated DSENet® terminals for system expansion.
- Both modules are compatible with electronic (CAN) and non-electronic (magnetic pick-up/alternator sensing) engines and offer an extensive number of flexible inputs, outputs and extensive engine protections so the system can be easily adapted to meet the most demanding industry requirements.
- The extensive list of features includes enhanced event and performance monitoring.
- The DSE8610 is an easy to use multi-generator loadshare system, designed to synchronise up to 32 generators including electronic and non-electronic engines.
- The DSE8610 monitors the generator and indicates operational status and fault conditions, automatically starting or stopping the engine on load demand or fault condition.
- System alarms are annunciated on the LCD screen (multiple language options available), illuminated LED and audible sounder.
- The event log will record 250 events to facilitate easy maintenance. An extensive number of fixed and flexible monitoring, metering and protection features are included as well as comprehensive communication and system expansion options.

Documents

- Engine parts manual and original data
- Alternator original data
- Controller system original data
- Generator set factory test report

- Generator set maintenance record manual
- Generator set instruction manual
- Generator combination certificate

Optional

Engine	Controller System
Water heater	Compartment operation remote control system
• Fuel heater	With three remote control screen
• Oil heater	Auto Transfer Switch
Secondary silencer	Multiple units are automatically connected in synchronize
Water separator	Centralized monitoring
Alternator	Others
Anti condensation heater	Separate fuel Tank
 Permanent magnet generator (PMG) 	Buried storage tank
• Drop CT(Paralleling)	Fully automatic oil supply system
Other alternator temperature rise level	Remote water tank
Stator winding temperature sensor RTD	Waterproof Type genset
Bearing temperature sensor RTD	Trailer Type genset
• Air filter	Soundproof Type genset
	Open Type genset

Service Commitment

- The products provided are all new products. each gensets undergoes strict factory inspection.
- Products are provided with "three guarantees" service, the period is 12 months after the unit is adjusted and the accumulated running time is 1000 hours, whichever comes first.
- The services and accessories of products can be obtained from the after-sales service department (86-510-83781999-1009).
