

- 1) Ambient reference conditions: 1,000 mbar, 25°C, 60% relative humidity
- Standby Power Standby duty, operation under variable load, without Over load;
- Prime Power-Continuous duty operation, under variable load 24/24h
   -10% over load permissible 1 hour/12 hours

#### **Features**

- Strong power, high torque, easy to maintain, easy to start;
- Low noise, low emissions;
- Cabinet made of high quality sheet metal, corrosion-resistant, scratch-resistant;
- Canopy sealing performance, high waterproof, dust-proof, rain, dust and other difficult to access;
- Omni-directional control, easy connection and simple;
- Cranes, fork, pull, drag, easy transportation;
- ≥8-hour fuel tanks;
- Open type with 40°C radiator, Soundproof type with 50°C radiator

### **DIESEL GENERATOR SETS**

R-V Series
Powered by VOLVO Engines

R-V300D5/S

**50**<sub>Hz</sub>

# **Output Ratings**

| Т           | hree-Phase, 50   | )Hz, | 1500R            | PM           |
|-------------|------------------|------|------------------|--------------|
| Output      | Prime Power      |      | Sta              | ndby Power   |
| Output      | 300 kVA / 240 kW |      | 330 kVA / 264 kW |              |
| Voltage (V) | Frequency (Hz)   | Curi | rent(A)          | Power Factor |

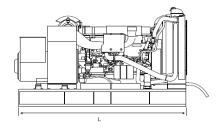

| Voltage (V) | Frequency (Hz) | Current(A) | Power Factor |
|-------------|----------------|------------|--------------|
| 380/220     | 50             | 465        | 0.8          |
| 400/230     | 50             | 433        | 0.8          |
| 415/240     | 50             | 417        | 0.8          |

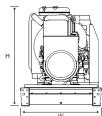

### **Performance Data**

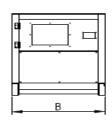

| Engine Brand & Model            |           | VOLVO & TAD1351GE |

| Windings                      | 100% Copper        | Phase Sequence                          | A(U), B(V), C(W) |
| Silicon Steel Core Processing | One Piece Punching | TIF(NEMA MG 1-22)                       | <50              |
| Insulation Class              | н                  | Excitation System                       | Self-excited,    |
| IIISuldtioli Class            |                    | Excitation System                       | SHUNT            |
| Winding Pitch                 | 2/3                | Ambient Temp.                           | 50 °C            |
| Amortisseur Winding           | Full               | Stator Rated Temp.                      | 125 °C           |

### **Control System:**

**DSE7320** 

**DSE8610** 

- Monitoring an extensive number of engine parameters, the modules will display warnings, shutdown and engine status information on the back-lit LCD screen, illuminated LEDs, remote PC and via SMS text alerts (with external modem).
- The DSE7320 will also monitor the mains (utility) supply. The modules include USB, RS232 and RS485 ports as well as dedicated DSENet® terminals for system expansion.
- Both modules are compatible with electronic (CAN) and non-electronic (magnetic pick-up/alternator sensing) engines and offer an extensive number of flexible inputs, outputs and extensive engine protections so the system can be easily adapted to meet the most demanding industry requirements.
- The extensive list of features includes enhanced event and performance monitoring.
- The DSE8610 is an easy to use multi-generator loadshare system, designed to synchronise up to 32 generators including electronic and non-electronic engines.
- The DSE8610 monitors the generator and indicates operational status and fault conditions, automatically starting or stopping the engine on load demand or fault condition.
- System alarms are annunciated on the LCD screen (multiple language options available), illuminated LED and audible sounder.
- The event log will record 250 events to facilitate easy maintenance. An extensive number of fixed and flexible monitoring, metering and protection features are included as well as comprehensive communication and system expansion options.

# **Optional**

| Engine                                  | Controller System   |
|---|---|
| Water heater                            | Compartment operation remote control system               |
| Fuel heater                             | With three remote control screen                          |
| Oil heater                              | Auto Transfer Switch                                      |
| Secondary silencer                      | Multiple units are automatically connected in synchronize |
| Water separator                         | Centralized monitoring                                    |
| Alternator                              | Others  |
| Anti condensation heater                | Separate fuel Tank  |
| Permanent magnet generator (PMG)        | Buried storage tank                                       |
| Drop CT( Paralleling)                   | Fully automatic oil supply system                         |
| Other alternator temperature rise level | Remote water tank   |
| Stator winding temperature sensor RTD   | Waterproof Type genset                                    |
| Bearing temperature sensor RTD          | Trailer Type genset                                       |
| Air filter                              | Soundproof Type genset                                    |
|   | Open Type genset  |

### **Service Commitment**

- The products provided are all new products. each gensets undergoes strict factory inspection.
- Products are provided with "three guarantees" service, the period is 12 months after the unit is adjusted and the accumulated running time is 1000 hours, whichever comes first.
- The services and accessories of products can be obtained from the after-sales service department (86-510-83781999-1009).
